

BCA Smart Repair

Maximise your vehicle residual with our repair and refurbishment services.

With BCA, we present your vehicles in the right condition so they can sell faster and achieve optimum prices. Vehicles looking their best attract significantly higher buyer interest leading to more first time conversions and an increased CAP performance.

Buyers prefer vehicles that are well prepared as they are able to advertise and retail a vehicle quicker if it has been refurbished and prepared by BCA improving stock turn and cash flow.

Across the BCA network our skilled team carried out almost a million repairs and valets across cars, commercial vehicles, HGVs, motorcycles and motorhomes. We can match your specific needs and also integrate the work into our vehicle inspection and vehicle logistics services to give you a seamless de fleet and remarketing process.

BCA Smart Repair

Maximise your vehicle residual with our repair and refurbishment services. As UK SMART* repair market-leaders, BCA carried out over 20,000 repairs on vehicles last year and offers specialist on-site expertise, across all of our remarketing centres, in the removal of minor body damage to significantly enhance a vehicle's value. Our highly trained and experienced technicians will ensure your vehicle is refurbished to a standard where it will be desirable and attract the most interest.

* Small to medium area repair technique
